

Nevada First National Bank of Tonopah

CAPITAL, \$100,000

THE TONOPAH BANKING CORPORATION

The Liberty Bond is Uncle Sam's Promise to Pay and Return Worth \$250,000,000,000.

DIRECTORS—George Wingfield, H. C. Brougher, W. H. Bayle, Hugh H. Brown, Clyde A. Heller, J. B. Humphrey, S. W. BLAIR, Cashier.

CALUMET BAKING POWDER SAVES THREE WAYS

A moderate priced Baking Powder of greatest merit. Honestly made. Honestly sold. Economical in every way. Every pan full of actual leavening value. A full money's worth.

You save time when you use it. Calumet is all baking powder. It begins to leaven the instant they are put into the oven. You don't have to keep "peeping" to see if it is rising or not. You know they are. Calumet is sure—never fails. That's economy. And true economy—in cost—in use—in time.

One trial will prove it and show you in results why hundreds of shrewd, thrifty housewives prefer Calumet to all other brands.

The unfailing strength of Calumet guarantees a perfect result. Only Calumet—flour—sugar—eggs—baking powder. You use only a teaspoon and use two teaspoons of most of the other brands.

Calumet contains only such ingredients as have been approved by the U. S. Food Authorities.

AMUSEMENTS

BEAUTIFUL NORMA TALMADGE AT BUTLER.

Norma Talmadge, the beautiful silent star, will appear at the Butler today in her latest silent picture, "The Forbidden City," one of the most exquisite Chinese stories ever screened.

The story begins when Wang Li, a Chinese mandarin, learns that his beautiful daughter, San San, has married secretly to the Westerner, a young officer attached to the American consulate. He springs San San away during her husband's absence, and Wang Li, as never again able to find her, goes to the United States.

Divide is the most spectacular silver camp that has attracted public attention since Tonopah jumped into the limelight in 1902, 1903 and 1904 and made millions for many staid old Philadelphia miners who have for many years been receiving dividends from the Tonopah Mining, Elmore and other mines which they control.

Divide is the most spectacular silver camp that has attracted public attention since Tonopah jumped into the limelight in 1902, 1903 and 1904 and made millions for many staid old Philadelphia miners who have for many years been receiving dividends from the Tonopah Mining, Elmore and other mines which they control.

The Tonopah boom was started in Philadelphia where Tonopah Mining sold at \$21 a share, spread to New York and then went west to Pittsburgh, where the late Robert Hall sold to Charles Schwab, 100,000 shares of Tonopah Extension for \$25,000 which had cost him \$10,000. The stock later sold at \$13.25 a share.

There was the Bethlehem steel master's first mining venture in Nevada but not the last, for if rumor does not lie he is financially interested in Belcher Divide, Belcher Extension, Victory and Divide Extension.

Philadelphia had been so happily married to Tonopah for so many years that it refused to be divorced. A bigamous alliance with her twin sister, Divide, or even admit that any camp located so close to its pet mines could rival and surpass it. That is why Philadelphia sits still and watches its mines being developed which promise to exceed in production and average ore values the great properties of Tonopah which have paid over \$13,000,000 in dividends.

There are many famous mining engineers who have made an exhaustive study of the two mining camps and who predict that Divide will be a greater camp than Tonopah, but who even venture the suggestion that future developments will prove it to be the same great silver bearing zone but with more intense and more widely diversified mineralization.

Certain it is that, age for age, Divide is ahead of Tonopah. After little more than nineteen months development, Divide boasts two mines with from ten to thirteen million dollars worth of ore blocked out, and over a dozen properties developed and ready. At the same age Tonopah had only one mine and a dozen properties sinking shafts and looking for "blind" or buried ore bodies.

At no time in its existence, even at its zenith, did the mines of Tonopah claim the amount of ore now blocked out in Divide.

SILVERBOOM INEVITABLE NOW THE STRIKE IS OVER

The advent of the inevitable boom in silver stocks justified by the extraordinary high price will be hastened by the reopening of the mines of Tonopah and Divide, many of which resume work today, says Gordon Hall in the New York Morning Telegraph.

NAVAL CADETS VISITING ITALY

(Correspondence of Associated Press)

ROME, Sept. 14.—The cadets of the graduating class of the West Point military academy who came here to see and study the battlefields of the great war, have been welcomed and lavishly entertained with luncheons, banquets, drills and dances in ten Italian cities.

The fetes in honor of the Americans began at Leghorn where the cadets landed in Italy and where they were guests of the Royal Naval academy at an elaborate luncheon at which addresses were delivered by officers of the Italian navy and by Colonel West.

In Rome, famous archaeologists and artists acted as guides for the cadets in sight-seeing tours and exhibitions of bombing, machine gun war cavalry charges, trench-knife fighting and an artillery drill was given at the Vatican barracks.

Properties have become more valuable because silver has advanced nearly 10 cents an ounce. Tonopah Divide valued its ore reserves in July at a price of \$1 an ounce, the current increment is over \$80,000 at the current high price of silver.

Unless you are sick or an idiot, the matter of whether you are getting along pretty well probably depends upon the matter of whether you are dominated by the "cants" and "won'ts" or by the "cans" and "wills."

Clerk of Said Court.

The Square Deal is Born and Bred Into Fisk Tires

Back of Fisk Tires there's a concern whose one ideal is:

"To be the Best Concern in the World to Work for and the Squarest Concern in Existence to do Business with."

It is that backing — that spirit of doing the square thing — that puts into Fisk Tires the extra miles and the complete satisfaction in using them.
